Corporate Profile

Who we are and what we do ?

Zesty Beanz Technologies is a multinational company, with expertise in Odoo (formerly OpenERP). The company has been providing development, customisation, implementation, maintenance, support and training in Odoo (from Tiny ERP/OpenERP) to most of the leading Odoo official partners and direct customers worldwide.

Zesty currently has 100+ technical and functional consultants working in different locations across the globe. With its highly experienced and collaborative team, Zesty Beanz provides customization, consulting, training, support and maintenance to partners and customers in over 60 countries.

The key areas of expertise include

1. **Functional Consultancy Expertise**: Mapping of end requirements efficiently with the functionalities, and consulting for the approach of implementation.

2. Technical Consultancy Expertise: Highly experienced Python developers are working for more than five years on OpenERP.

3. Offshore project management with reliable strategies.

4. Working experience with worldwide partners of Odoo/OpenERP.

5. Cost effective project execution with fixed time and material billing.

Zesty Beanz was shortlisted in 2013 as a promising SME company to set up office in Germany with the funding support from the NFFX Nuremberg Fürth for Excellence in cooperation with the State of Bavaria (Invest in Bavaria) and the Nuremberg Chamber of Commerce and Industry.

The company is a member of NASSCOM - a premier organization that represents and sets the tone for public policy for the Indian software industry. Zesty is also a proud winner of the prestigious ISBA-2011 award governed by the Dept of Science & Technology (Govt. Of India) for outstanding companies in the Information and Communication Technology(ICT) category. Zesty Beanz has been conferred with various national and international recognitions since its incorporation and active in the Free & Open Source community.

What is Odoo ?

Odoo (formerly known as OpenERP), is a free open source business management solution, with an integrated ERP structure that optimises workflow of an organisation. Odoo features include Accounting and Financial, Sales and Services, Procurement and Logistics, Inventory Management, Human Resource Management, and Corporate Services, etc.

The benefits of having Odoo include:

1. Web based applications with no licensing costs.

2. Fully customised solutions based on the end user needs.

3. User friendly application.

4. Complete business integration unified in a single database, accessed from a single point.

5. Easy and open to integrate with other systems.

What do our clients say about us ?

"ZestyBeanz team did a wonderful job by successfully implementing OpenERP for our entire business. We are intending to do a lot of things with this OpenERP expert team in future and we recommend their service to any customers looking to implement this greatest Open Source ERP." - **Mr Turki M Saeed, CEO, Kawthar Ibrahim Abdulkader and Partners, KSA**

"We are very impressed with zbeanztech and your ability to deliver what was promised, on budget, and schedule. You've put together a wonderful group of OpenERP professionals. I look forward to continuing our business relationship with you." - **Mr. Hamged Mahmoud, Manager – Brand and Trade, Abu Dhabi, UAE**

"It was a great achievement that we could complete our OpenERP implementation with ZestyBeanz continuous and professional support. We believe that the Zesty team can take up any complex multi company ERP implementations and we have experienced their effectiveness. Our Technology company in the group is working together with Zesty for our enhancements and providing IT solutions to organizations in West & Central Africa." - **Mr. Milind Wagh, Chief Operating Officer, Simba Technology, Lagos, Nigeria**

"Based on our extensive experience with Zesty Beanz Technologies Pvt. Ltd, we would enthusiastically recommend your company to other businesses for their software, ERP, CRM, accounting and custom workflow solutions." - **Mr. Dusan Kukucka, IT Manager, Asia Market, Dublin**

"When we first became a client[of Zesty Beanz] over 5 years ago, you and your staff took a personal interest in our needs, listening to what we wanted to achieve with the software and offering experienced suggestions to the best way to implement the changes. Over the years you have continued to work with us and have always given us the opportunity to upgrade the way we do our business with new ideas and solutions that have come into the market. Your staff is to be commended for their professionalism and dedication. Their responses to our questions have been handled efficiently and timely. - **Mr. Jean - paul Robineau, IT Manager, Kyotech Group**

"I have been impressed with Zesty Beanz services. The work is good quality, and everyone is very professional. It is a shame that we didn't start using Zesty Beanz from our first OpenERP implementation - the company that we used previously was not nearly as expert in OpenERP or as professional." - **Mr. Mike Convey - Abbelio Limited, Hong Kong**

"As a Online wholesale and Import company we did spend a lot of time finding the best online ERP solution for our purpose and ended up with OpenERP 6.0 on our own server. After a few months an upgrade of OpenERP came available leaving us with a problem, due to OpenERP upgrading is quite hard to do. We decided to search for a partner that would be able to host and maintain our ERP solution, to give us a more stable setting. We spent more than 2 weeks comparing several possible solution providers and after some mails and calls with the Zesty Beanz team we got the impression that they could handle our project. They directly gave us a road map for upgrading, hosting and customization of our OpenERP instance for a very competitive price. I must state they did what they promised and within one week we had our demo version of OpenERP online. It took the Zesty Beanz team one other week to repair some bugs and the final version was ready to go. This is quite effective and fast! We had some small glitches and some (our) user mistakes when we started to fully use the system, this didn't give us any problem due to the fact that Zesty Beanz directly responded to our questions and solved all our problems within a day. In short, the Zesty Beanz team is very responsive, quick and capable." - **Mr. Tom Arnst, Director, e-Products Oy, Finland**

"Zesty Beanz is one of the most reliable partners we have come across. We have initiated a critical project along with Zbeanztech, for our company, which we are continuing further successfully. We highly recommend this sincere team of experts under Zbeanztech." - **Mr.David Singh – CEO, PBG OMsoft, Poland**

"If I didn't know that Fabien created OpenERP, I would think that it was invented by ZestyBeanz, Thanks ZB!!,you are the best team I know!!!" - **Mr. Ariel E. Figueroa – CEO, SF Soluciones, Mexico**
